

Certified Commercial Arborists Serving Western Wisconsin

Services provided by commercial arborists vary, but typically include urban & residential tree planting, pruning, removal, fertilizing, cabling-bracing, and pest diagnosis & treatment; some arborists may offer additional services such as consultation about tree protection on construction sites, landscape tree appraisal, damage assessment, expert witness, etc.

Arborist certification is a voluntary program of the International Society of Arboriculture. Unrelated to insurance coverage or licensing, certification is earned by successful completion of a comprehensive exam covering the principles and practice of tree care. Certification is valid for three years. ISA maintains a searchable database of certified arborists at www.isa-arbor.com/findArborist/findarborist.aspx.
